

Morning of my life

In the morning, when the moon is out to trust
you will see me , at the time I love the best ,
watching rainbows , play on sunlight ,
pool of water , Ice stream could nights
in the morning, it's the morning of my live

In the day time, I will meet you as before ,
you will find me, waiting by the ocean floor ,
building castles , in the shifting sands
in a world that no one understands
in the morning, it's the morning of my live, it's the morning of my live

In the morning of my live
the minutes take so long, to drift away,
please be patient with your live ,
it's only morning and you've still to live your day

In the evening, I will climb to the moon
to the top right hand corner, of the ceiling in my room
Where we' ll stay until the sun shines
another day , to swing on clothes lines ,maybe yawning ,
It's the morning of my live, It's the morning of my live
In the morningin the morning
